50X1-HUM

1. Construction work involving repairs and extension have been underway on the Mija Forest Rumanian Metalochimica Enterprise since December 1951. Sovromconstructie is carrying out this improvement program. The plant produced ammunition during World War II. All buildings have tarred roofs and camouflaged side walls.
2. Metalochimica produces grenades and cartridges. The new plans call for the production of shells and possibly bombs. The production of one type of shell exceeding 1102 lbs. (500 kilos) weight is anticipated.
